### RYB Education Issues Further Update

BEIJING, November 29, 2017 - RYB Education, Inc. (“RYB” or the “Company”) (NYSE: RYB), a leading early childhood education service provider in China, issued an update following the local police authority’s release of a follow-up report on November 28, 2017 (the “Follow-up Report”) regarding the investigation of the case initially described in RYB’s press releases issued on November 24, 2017.

According to the Follow-up Report, the police found maltreatment involving a former female teacher’s use of sewing needles as a way to “discipline” children during post-lunch naptime at the RYB-operated kindergarten in violation of law. The police reported that no evidence has been found indicating further misconduct and that additional claims had been fabricated.

Safety of the students is the highest priority of the Company. RYB is deeply saddened to learn about the latest findings in the Follow-up Report. The Company also understands that there have been additional parent complaints regarding other RYB-branded kindergartens and will continue to cooperate fully with the police and other authorities in this matter. The Company remains steadfast in its commitment to ensuring the well-being of all the students and is in the process of implementing a comprehensive self-inspection across all RYB teaching facilities.

### **Use of Non-GAAP Financial Measures**

We use EBITDA, adjusted EBITDA, adjusted operating income, adjusted net income, and adjusted basic and diluted net income per ADS, each a non-GAAP financial measure, in evaluating our operating results and for financial and operational decision-making purposes.

EBITDA is defined as net income excluding depreciation, amortization, interest expenses, and income tax expenses; adjusted EBITDA is defined as net income excluding depreciation, amortization, interest expenses, income tax expenses, and share-based compensation expenses; adjusted operating income is defined as operating income excluding share-based compensation expenses; adjusted net income attributable to ordinary shareholders is defined as net income attributable to ordinary shareholders excluding share-based compensation expenses; and adjusted basic and diluted net income per ADS attributable to ordinary shareholders are defined as basic and diluted net income per ADS attributable to ordinary shareholders excluding share-based compensation expenses.

We believe that EBITDA, adjusted EBITDA, adjusted operating income, adjusted net income, and adjusted basic and diluted net income per ADS, help identify underlying trends in our business that could otherwise be distorted by the effect of certain expenses that we include in income from operations and net income. We believe that EBITDA, adjusted EBITDA, adjusted operating income, adjusted net income, and adjusted basic and diluted net income per ADS, provide useful information about our operating results, enhance the overall understanding of our past performance and future prospects and allow for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

EBITDA, adjusted EBITDA, adjusted operating income, adjusted net income, and adjusted basic and diluted net income per ADS, should not be considered in isolation or construed as an alternative to net income or any other measure of performance or as an indicator of our operating performance. Investors are encouraged to review the historical Adjusted financial measures to the most directly comparable GAAP measures. EBITDA, adjusted EBITDA, adjusted operating income, adjusted net income, and adjusted basic and diluted net income per ADS, presented here may not be comparable to similarly titled measures presented by other companies. Other companies may calculate similarly titled measures differently, limiting their usefulness as comparative measures to our data. We encourage investors and others to review our financial information in its entirety and not rely on a single financial measure.
